THE TALON

Hood River Valley High School

June 2014

Each year, the final edition of The Talon pays tribute to the graduating class. Seniors get a chance to thank people, express their regrets, tell us what they'll miss, "will" items to their younger classmates, and predict where they'll be in the future. (These are their words, errors and all.) After the seniors get their say, the HRV staff gets a chance to say good-bye to each graduating senior. Farewell, class of 2014!

The seniors say thank you

Kailee McGeer: I would like to thank Mrs. Stevens for teaching me French and taking me to France! I thank Mrs. Uhler, Mr. Noteboom, and Mr. Judah for helping me with my running during cross country. I also thank Mr. Clarkson for sharing his passion for biology with me, and I thank Mrs. Noteboom for helping me with my writing and supporting my love for Justin Bieber!

Allison Fashing: I would like to thank everyone that has been part of my life since the beginning. Of course my mom and dad for always being there for me and making my lunches everyday for the last 12 years. I want to thank my friends that got me through the first 9 years of school in Hood River. I want to thank the friends who got

me through senior year. And the ones that have been there since the start. You guys have made such an impact on my life and I'm so appreciative of that! I want to thank Amalie for being my little sister for three months and teaching me so much about Denmark and loads of other stuff. Love ya girl. I want to thank Mrs. Bentley for being such a great counselor and answering all the questions I have had. I want to thank all the people that I have had run ins with, you have made me a better person because of it. THANK YOU TEACHERS: all you've done is support us throughout our high school career and there is nothing more important than a support system. You guys are the best.

Ansley Bricker: I want to thank Mme Stevens for teaching me French and helping me to complete my goal of being able to have a conversation in French with someone French. I want to thank Krum for helping me to be confident in who I am. I want to thank Mr. Case for being such an understanding trusting teacher and treating students like people. Some people are meant to be teachers and you are one of them. I want to thank all of my dance teachers for pushing me and inspiring me to be the best dancer I can be. I have learned so much from you guys and not dancing at the studio next year will be so difficult for me.

Karla Galvez: I would like to thank Mr. Correa for being an awesome teacher and also an amazing friend. He helped me through a lot of things and with my school work. Without him a lot of my fellow class mates, including myself, would probably not be graduating. Thanks Mr. Correa you are the best!

Keagan Dayley: I would like to thank my counselor Tammy Hosaka for helping me through this year and Jonnie from ASPIRE. She was a huge motivating factor throughout this year to get everything done.

Senior thank-yous

Gabriella Whitehead: I would like to thank my teachers for keeping me inspired to be my best. I would especially like to thank Krum for being an awesome roll model and example in my life and for teaching me so much, I will never forget you!

Joel Aberg: First of all, I would like to thank my host family for doing so much for me. I would also like to thank the other exchange students for keeping together this year. Also, all my fellow friends at the high school that I got so close to during this year are all very important for me, not just during this year, but also in the future. Without you, this experience would not have been as amazing as it turned out to be. I would also like to thank my coach in soccer, Jaime Rivera, for taking me in the team. Also my coaches in lacrosse, Jon Munk, George Dolack, and Matt

Luchsinger. I would also like to thank awesome teachers of mine during my year, such as Heidi Mudry, Mr. Case, Mr. Fults, Mr. Kennedy, and Mr. Correa. If I forgot to mention someone, you mean a lot to me too, I was just in a rush writing this.

Ellery Hight: I would like to thank Mr. Fults for making my mornings, with your awesome dance moves. I would also like to thank Mrs. Bentley for always being there when I was stressed with school, you're the best!

Ashlynn Olmstead: I would like to thank Mr. Butcher for always making me laugh.

Kaylee Colt: I would like to give the biggest thank you to Mr. Correa for always being a homie. I also would like to thank Mrs. Charity for being my homegirl this year.

Althea Dillon: I would like to thank all my teachers who taught me that being yourself is okay, and everyone learns and excels differently.

Alonso Magana: I would like to thank all the amazing people I've met and befriended over these quick four years. I would love to thank Madame Stevens for making learning a new language so much fun, I've had you as a teacher the longest and I'm so grateful I was able to have your classes all these years. And don't get me started on the fun times from the France field trip! *Vous me manquez Madame!* I would also like to thank Ms. Malak for being the awesomest, craziest, all-around amazing teacher out there! I love the awkwardness and fun I've had in your classes these last two years and I'd like to thank you for letting the strangeness prosper. Also, thank you so much for supporting me and helping me with all the art school stuff and just removing all the stress that comes from it. I'd also like to thank Mr. Judah for being Mr. Judah. You go Judah! I'll miss all of you deeply and thank you for making my high school experience quite enjoyable.

Marten Sova: Thank you Mr. Blackman for putting so much work into providing us with so many opportunities. Thank you Mr. Judah for being a great teacher.

Austyn Polzel: I want to thank Mr. Schmidt, Mrs. Bozarth, and Mr. Bozarth for helping me along with everything since 8th grade. I enjoyed all the opportunities I had while in FFA. I also want to thank Mrs. Noteboom and Lisa Roberts for all the help with preparing for college. Mr. Lorenzen also deserves some credit for putting up with my crap in his class my junior year. I would also like to thank the Academy.

Ricardo Castillo: I would like to thank anyone who has supported me.

Emily Boudreau: I would like to thank Mr. Wellenstein, Mrs. Ramsey, Profe Hay, and Mr. Correa. Mr. Wellenstein and I spent a lot of time together last year as I struggled getting through algebra 2. I was in his class after school, before school, and during my off sites. Thank you for not giving up on me and making me laugh. You're one of the best teachers at the high school. Mrs. Ramsey is also one of the best teachers at the high school. I appreciate that she will actually teach her students instead of putting them in front of a computer or book to learn the information. I can tell she cares about her students and wants to help them succeed. It's hard to find a teacher like Mrs. Ramsey. Profe Hay is also one of my favorite teachers because she has the same qualities as Mrs. Ramsey. She takes her time to teach her students until they understand

the material. And the best for last! Mr. Correa is awesome. That's all I really have to say. I appreciate everything he has done for our class. He has helped so many students this year to graduate and to go on to college it blows my mind. He makes us determined and hopeful for the future. He puts our needs before his own. He's like a papa bear to the class of 2014. You are truly a remarkable human and everyone you have helped will always remember you.

Hunter Peterson: There are so many teachers who have helped me, it will be impossible to name them all. First, a blanket thank you to every teacher I have ever come in contact with. You have all taught me so much and I loved every minute of it. However, there are a few I absolutely must thank by name. First, Ms. Ramsey. I can't even begin to describe how much you have changed my life. From the philosophical basis of your class to every minute of your personal support, you have touched me in both mind and soul. Thank you for teaching me. You have truly changed my life. Mr. Case, thank you for being a fellow history geek. At last, someone gets the violin thing and shares my pure hatred for Edward Rutledge. Mr. Clarkson, you have riveted my mind like no other. Med. Bio. so intrigued me that I seriously considered changing my college major. Yeah. I'll bet you didn't know that. I thought it was that cool. Biology forever! Mr. Kellert, thanks for making me not hate math quite as much. If I had to be with the same teacher for two years, I'm glad it was with you.

Ryan Wagar: I would like to thank Ms. Jones for teaching the female students of our school how to dress. Best fashion sense in our school hands down. Shout out to Tactay for finally learning my name after having me in class for 6 months.

Sophie Finstad: I would like to thank Mr. Steighner for expanding my knowledge of music. I would like to thank Profe Mudry and Profe Hay for making learning a new language so much more fun and interesting. And, of course, I would like to thank Krum for being so much more than just a theatre teacher.

Andrew DeHart: I would like to thank Coach Kroll for all that he taught me throughout my four years at HRVHS both on and off the mat, and I would like to thank Christian Marquez for all the great times spent together.

Miga McCurdy: I would like to thank Mrs. Stevens for inspiring me to travel to France for a year. Also, Mr. Haspela for being an amazing soccer coach throughout my high school experience.

Saluting Hood River Valley High School Graduates

Hood River Republicans are proud of our Hood River Valley graduates Mark Johnson and Chuck Thomsen, both Republican legislators in Oregon. Their education at Hood River Valley High School helped them become successful business people and leaders in governmental affairs from the local to the state level.

Chuck Thomsen

Following in the footsteps of the first Republican president, Abraham Lincoln, they tackle the hard issues of providing services to Oregon residents while keeping the state budget balanced. We invite all current HRV students to study the issues and the candidates to decide which people will be the best at leading our country in both the good and not-so-good times. Your future will be affected by who gets elected in the May Primary and the November General Elections this year.
